Summary

Motivated software developer experienced in web development, specializing in Java, React, and Symfony. Passionate about innovation and creating high-quality solutions. Committed to expanding technical expertise and seeking challenging projects to contribute to.

Education

Higher School Of Digital Economy ESEN   *Sep 2018 - May 2021*
Applied License in IT applied to management   Manouba

Private Higher School of Engineering and Technology ESPRIT   *Sep 2022 - 2025*
Pursuing an engineering degree at ESPRIT
Specializing in Architecture IT & Cloud Computing - ArcTIC, Starting from next year.   Ariana

Projects and Internships

End-of-Studies Project - ShopySolde   *Jan 2021 – April 2021*
SM DEVIS   Ariana
— Collaborated in a team of two on an end-of-studies project called "ShopySolde," a liquidation and destocking platform.
— Developed the project from scratch, utilizing the SERN (SQL, Express, React, Node) stack, gaining proficiency in React through self-learning.
— Designed and implemented various features, including user authentication, product catalog, and inventory management, to provide a comprehensive solution.
— Successfully presented the project to a panel of evaluators, effectively demonstrating its functionality and technical aspects.

Multi-Platform development project (Java, Symfony, Codename One)   *Dec 2022 – May 2023*
ESPRIT   Ariana
— Worked as a team member in a multi-platform development project utilizing Java, Symfony, and Codename One technologies.
— Played a key role in designing and implementing specific functionalities within the project, ensuring high-quality code and adherence to project requirements.
— Assisted in troubleshooting and debugging issues, working closely with team members to identify and resolve software defects and enhance overall system performance.
— Learned and effectively used Git and GitHub for version control, ensuring seamless collaboration and efficient management of project codebase.

Certifications

Unity Essentials Pathway | Unity Technologies   *December 2021*

Skills

— Symfony   — Java   — CSS   — Unity
— React   — SQL   — Git

Languages

- English (Fluent)
- French (Intermediate)
- Arabic (Native)

Interests and Volunteer Work

- Enactus ESEN - Active member for one year, contributing to various social entrepreneurship projects.
- Gaming - Highly interested in gaming, both as a recreational activity and as a potential career path.
